Features & Benefits

- XF Premium gear oil provides enhanced low temperature flow when cold starting, instantly protecting the vital components of the gearbox from the very start of every journey.
- XF Premium gearbox oil maximises viscosity stability at high temperatures. This reduces gearbox wear giving superior component protection including gear teeth, shafts and bearings.
- Delivers outstanding lubrication and instant protection under hot and cold temperatures, whilst simultaneously reducing fuel consumption due to its low viscosity.
- XF Premium gear oil is specifically formulated for use in hybrid systems including self-charging hybrid electric vehicles (HEV) and plug in hybrid electric vehicles (PHEV).
